

Tanzania Travel Requirements

Last updated: 06 May 2022

Who can travel?

- Open to all visitors subject to meeting the entry requirements

What do you need to travel?

Passengers and airline crew travelling **to Zanzibar** must complete the "Traveller's Surveillance Form" at <https://afyamsafiri.moh.go.tz/> at most 24 hours before arrival.

Passengers are subject to a COVID-19 test upon arrival and quarantine until they receive a negative test result, if they do not have:

- a COVID-19 vaccination certificate showing that they were fully vaccinated at least 14 days before arrival. Vaccines accepted are AstraZeneca (SK Bioscience), AstraZeneca (Vaxzevria), Covaxin, Covishield, Covovax, Janssen, Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty), Sinopharm and Sinovac; or
- a negative COVID-19 NAAT or RT-PCR test result certificate with a QR code from a test taken no more than 72 hours prior to departure of the first flight of their itinerary.

This does not apply to:

- passengers younger than 6 years;
- passengers with a COVID-19 recovery certificate issued at least 10 days and at most 180 before arrival.

Passengers arriving from Democratic Republic of the Congo, Egypt, France, India, the Republic of Malawi, Rwanda, South Africa, the United States of America, Uganda and the United Kingdom are subject to a COVID-19 rapid antigen test upon arrival at their own expense (the cost is USD 10). To avoid the long waiting time passengers can pre-book their rapid antigen test

at <https://zanzibarcovidtesting.co.tz/app/home> before departure. This does not apply to passengers who are 5 years or younger.

The above requirements are subject to change without prior notice. Please check the [IATA Travel Centre](#) website before your flight to get the latest updates on the requirements at the country you are travelling from and arriving to.

Travel safe !

Kind regards,

Your Zanzi Resort team
